

## Resolution for Changes to Personnel Shifts on Election Day

Whereas Election Day poll workers have to be onsite at their precincts from 6 AM until 8PM on Election day, without opportunities to exit the facility or break for outside meals;

Whereas Early Voting poll workers have shifts that cover 8 AM until 2 PM and 2 PM until 8PM, reducing the strain on the employees and giving them a chance to exit the facility for refreshment;

Whereas these shifts are just one manifestation of differences between Election Day and Early Voting personnel policies;

Be it Resolved that:

The Brunswick County Republican Party requests their representatives in the Legislature to pass enabling legislation that would permit shifts on Election Day, while permitting those who want to work both shifts may do so, with appropriate breaks, and enable Early Voting workers the same opportunity to work both shifts on their work days.
