

Resolution for Judges during Early Voting

Whereas Election Judges, appointed and recommended by Parties and the members of the Boards of Election, are required for election day;

Whereas Early Voting requires only Supervisors recruited and selected by the staff of the Board of Elections;

Whereas this recruitment and selection by only the staff precludes the People from oversight of the Elections process;

Be it Resolved that:

The Brunswick County Republican Party requests their representatives in the Legislature enact laws that would require Judges for Early voting, recruited and selected by the County Parties and appointed by the representatives of the people serving on the Boards of Elections.
